

BASELINE YOUR COST OF RISK

Getting Started with rPM³ Solutions

October 2014

Do you know how much risk is costing you?

rPM³ answers this question for you quickly by identifying and isolating your Cost of Risk. We apply our **ARQ Technology™** software tool and business method to up to 16 quarters of your historical financial data. Our experts then evaluate the results to provide you with a comprehensive picture of your organization's cost structure and performance.

You Get the Following:

1) **Facilitated Cost of Risk Deciphering Workshops**

Our experts guide you through the Cost of Risk process, applying our patented **ARQ™** business method. These workshops give you new insights into your organization — by seeing it for the first time “thru the lens of risk”.

2) **Access to ARQ Technology™ Software**

rPM³ will utilize its unique software tool to make the Cost of Risk deciphering workshops quick, easy and well documented. You get access to unique Cost of Risk analyses, reporting and data, all with drill down capabilities — made available to you at no additional charge.

3) **Independent Expert Interpretive Report**

rPM³'s Cost of Risk experts will review the results produced by **ARQ™** and will provide you with an independent written evaluation of your Cost of Risk — how it relates to your cost effectiveness and impacts your performance.

Benefits:

- Discover ways to reduce cost
- Learn how risk affects your cost and performance
- Find opportunities for growth
- Measure your risk management effectiveness (value)
- Measure your risk appetite
- Determine if ERM is right for you

“Those people who develop the ability to continuously acquire new and better forms of knowledge that they can apply to their work and to their lives will be the movers and shakers in our society for the indefinite future.”

- Brian Tracy

Reducing your Cost of Risk can directly improve your bottom-line and stimulate growth.
