

TRY OUR SOFTWARE

Getting Started with rPM³ Solutions

October 2014

Experience ARQ Technology™ for yourself!

Take a look at your business “*thru the lens of risk*”. rPM³ is offering a **4 month trial** at a **50% discount**. Upload your own data and learn first hand how leveraging the power of Cost of Risk (COR) can help you save money, improve performance and drive value in your business.

ARQ Technology™ is a patented software tool guaranteed to accurately and repeatedly measure, report and analyze your cost of risk and performance by using commonly available accounting and budget data.

You Get the Following:

- 1) 50% OFF — SaaS Access to ARQ Technology™ for 4 Months**
An unlimited # of users can experience how rPM³'s cloud-based software makes determining your Cost of Risk (COR) quick, easy and well documented. Explore the software's unique COR analyses and reports — all with drill down capabilities. See how COR relates to your spending effectiveness, uncovers opportunities for improvement and impacts your business performance.
- 2) 50% OFF — Custom Database and Software Configuration & Setup**
rPM³ will customize ARQ Technology™ to your accounting records and budget information to make the data upload process easy and repeatable.
- 3) 50% OFF — Facilitated Cost of Risk Deciphering Workshops**
Our experts guide you through the Cost of Risk process, applying our patented ARQ™ business method. These workshops give you new insights into your organization — you will see it for the first time “*thru the lens of risk*”.

Benefits:

- Experience ARQ Technology™ first-hand — using your own data
- **Efficient** — all your financial and cost of risk data in one place
- **Effective** — precisely monitor your risk effects, assuring quick response
- **Powerful** — details are a click away
- **Insightful** — find hidden risk effects

“While every data set contains noise, some data sets may contain signals. Therefore, before you can detect a signal within any given data set, you must first filter out the noise.”

- Donald Wheeler
